

D-Link®

Quick Installation Guide

This product works with the following operating system software: Windows XP/2000/ME/98SE

DSB-C320

D-Link 330K Pixel USB
PC Camera

Before You Begin

You must have at least the following:

- Pentium III 500 MHz, Celeron, AMD Athlon processor, or higher
- 64MB RAM (or minimum OS requirement whichever is higher)
- Microsoft Windows XP/2000/ME/98SE
- Microsoft DirectX 8.1b or higher
- Update Service Pack
- 200MB free hard drive space
- CD-ROM drive
- USB Port (USB specification version 1.1)
- 24Bit color display adapter
- Windows compatible sound card and speakers (full duplex sound card recommended)

Check Your Package Contents

These are the items included with your purchase:

If any of the below items are missing, please contact your reseller.

DSB-C320 USB PC CAMERA

CD-ROM(containing Drivers, Application Software, PDF Installation Guide, PDF Manual, and Warranty)

USB 1.1 Cable

Run the Driver CD before you install the PC Camera. The Driver CD contains an installation program that simplifies your installation process.

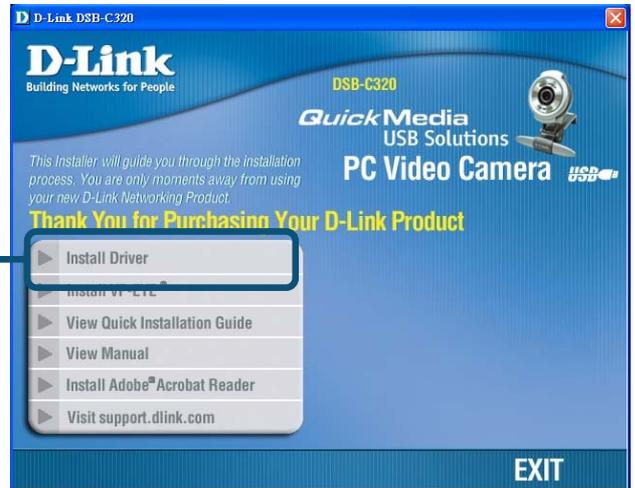

1

DSB-C320 Driver Installation

Please bring out the attached CD-ROM and follow the steps listed below carefully to insure the installation of DSB-C320 will be complete.

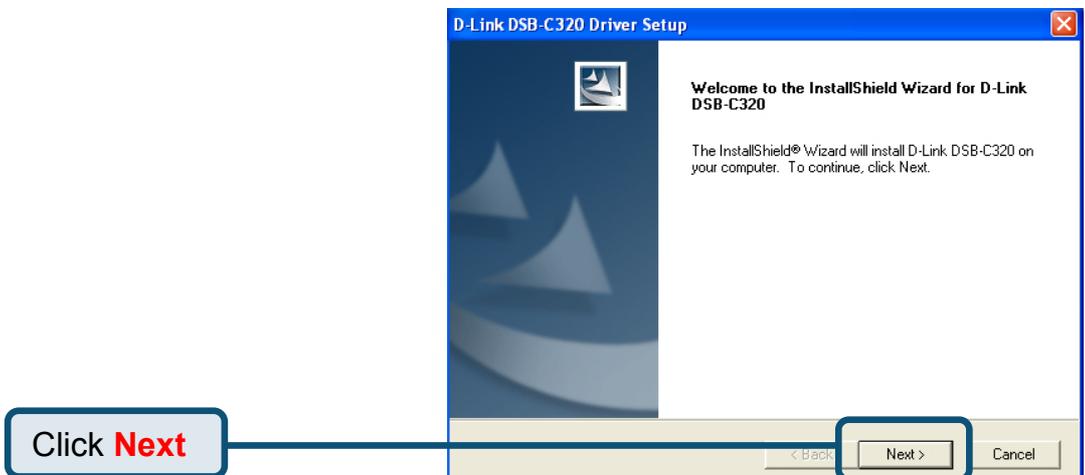

Insert the software CD into CD-ROM. As you can see the below picture, D-Link DSB-C320 startup window will be displayed.

Click **Install DSB-C320 Driver**

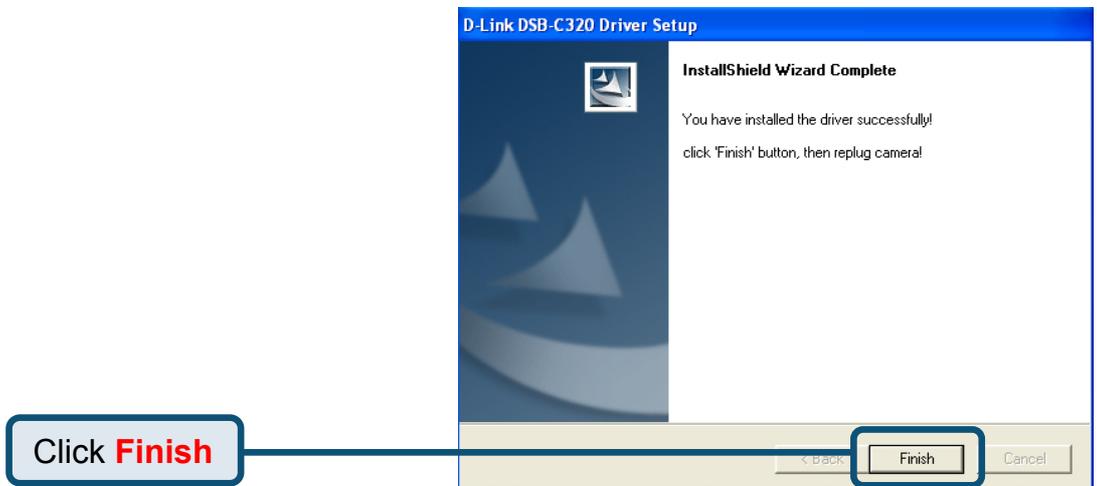

If the Autorun screen does not automatically start, click on **Start > Run**, enter „D:\Autorun.exe” and click **OK**. „D” represents the letter of your CD-ROM drive. Replace it if your CD-ROM drive is a different letter.

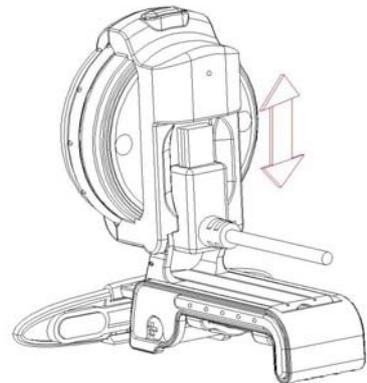

Windows XP Users

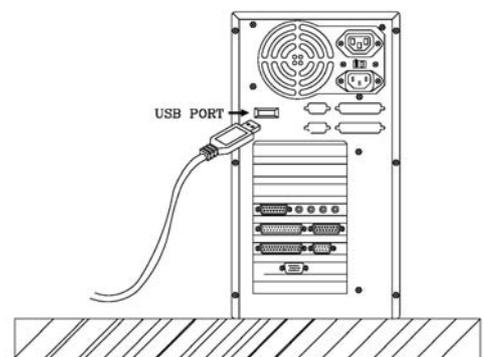

Windows XP Users (Continued)

Plug the USB cable into camera and USB port on the PC directly.

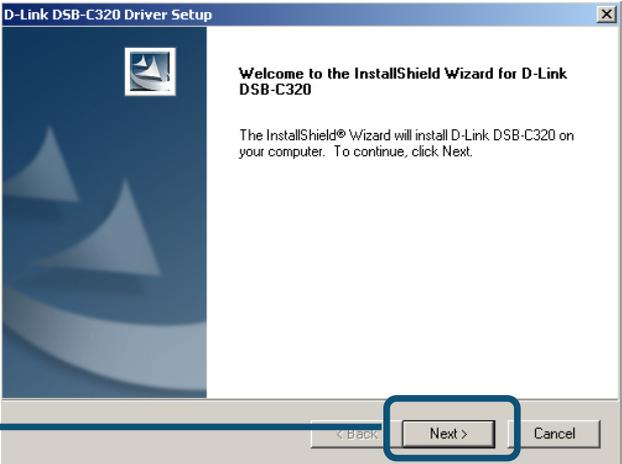

! When all setup procedures are finished, you **MUST** restart the operating system manually after you plugged the USB cable into camera and USB port as well as ran image device successfully.

Please Click “Yes” to restart the operating system.

Windows 2000 Users

2

Driver Installing is Completed!

To confirm the DSB-C320 is properly installed, click “START” →”SETTINGS”→”CONTROL PANEL”. Double-click ”SYSTEM”. Select the ”HARDWARE” tab and click the ”DEVICE MANAGER” button. Confirm that „D-Link DSB-C320” appears in the ”IMAGE DEVICES” section.

Once properly installed, you are ready to start immediately capturing images and a creating video with the DSB-C320.

Please refer to the DSB-C320 Manual on the CD included with this product for information on how to install and use the VP-EYE 4.0 software.

Attention:

1. Make sure to install the driver and software BEFORE plugging the camera into USB port.
2. We recommend plugging the cable connector to USB port on PC directly to avoid low voltage.
3. If a dialog box pops up and request to have the language setting file replaced after plugging the camera into USB port, please simply click “Yes” to continue.
4. Please download the latest update of “Service Pack” (from **Start** → **Windows Update**) to keep the camera running smoothly.
5. If you have more than one image device in your system, please select the “D-Link DSB-C320” as the PC Camera device. In this way, you can use this camera to capture images.
