

*Instantly Add Two USB 2.0
Ports to Your Laptop*

DUB-C2

- Two Hi-Speed USB 2.0 Ports
- Up to 40 Times Faster than USB 1.1
- Backwards Compatible with USB 1.1
- External Power Adapter for Reliable Connectivity with USB Peripherals

QuickMedia USB Solutions *Hi-Speed USB 2.0* **Cardbus Adapter**

The Quickmedia DUB-C2 is a Hi-Speed USB 2.0 2-port Cardbus adapter that upgrades notebook computers to USB 2.0. The DUB-C2 is designed to work with mice, keyboards, external CD-R/RWs, external hard drives, PC cameras, and all other USB enabled devices. It is 40 times faster than USB 1.1 adapters and transfers data at up to 480Mbps¹, making it ideal for external storage, backup, networking, and digital video.

The DUB-C2 is compliant with USB 2.0 standards and is backward compatible with USB 1.0 and USB

1.1 products. This gives you the ability to connect all of your USB 1.x devices to the DUB-C2. Each port detects whether the connected device is USB 1.x or USB 2.0 and automatically runs the device at the appropriate speed.

The DUB-C2 also comes with an external power adapter, allowing connectivity to high drain peripherals such as certain hard drives and digital video devices.

¹ Maximum transfer rate based on USB 2.0 specifications. Actual data throughput will vary.

High-Speed USB 2.0

Cardbus Adapter

SPECIFICATIONS

Standards

- USB Specification Version 2.0
- USB Specification Version 1.1
- USB Specification Version 1.0
- OHCI 1.1 (Open Host Controller Interface)
- EHCI .95 (Enhanced Host Controller Interface)

Operating Systems

- Microsoft Windows XP, Me, 2000, 98SE with USB Support
- Mac OS X 10 and Higher

Ports

Two downstream USB Type A Ports

Connectivity

Up to 127 devices by cascading multiple hubs

Supplied Current

500mA per port

Power

5V/2.5A

Certifications

USB-IF

Card Type

PCMCIA Type II 32-bit Cardbus

Operating Temperature

0°C to 40°C

Storage Temperature

- -20°C to 60°C
- 0 to 95%, non-condensing

Humidity

5% to 95%, non-condensing

Compliances

CE, FCC Class B, VCCI, UL

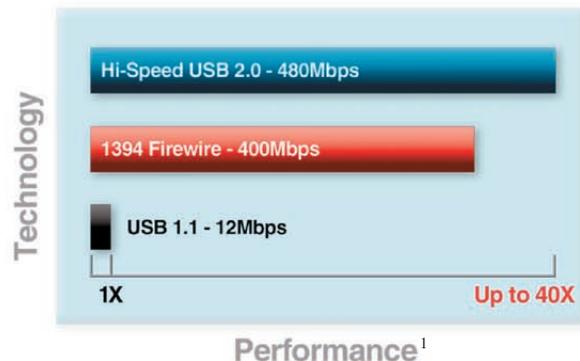

Warranty

1 Year

¹ Maximum transfer rate based on USB 2.0 specifications. Actual data throughput will vary.

DUB-C2

The DUB-C2 performs up to 40 times faster than USB 1.1 by utilizing the 480Mbps¹ throughput speed of Hi-Speed USB 2.0.
