

DUB-CR100

## 7-In-1 Card Reader

The D-Link DUB-CR100 compact, portable Card Reader allows you to read up to 7 different types of memory cards. Connecting to your computer through a fast USB 2.0 port, this Card Reader provides 4 sockets for data exchange, including Compact Flash, MicroDrive, Secure Digital (SD), Smart Media, Memory Stick (Pro) and MultiMedia Card.

### Compact All-in-One Solution

With all the different memory cards, it makes sense to get card reader that can read them all. With the D-Link DUB-CR100 compact Card Reader, you have a seven in one portable card reader.

The DUB-CR100 Card Reader is designed for use with your digital equipment that has memory cards. With multiple digital devices having their own particular formats, like SecureDigital, MMC and others. The DUB-CR100 Card Reader allows you to get your photos onto your computer fast without plugging your camera into the computer.

### Plug-and-Play Use of Use

The DUB-CR-100 Card Reader is simple to use. If your computer uses Windows ME 2000 or XP, no software driver installation is needed. You simply plug your Card Reader to your computer, and it's ready to read. No external power adapter is required. The Card Reader can do data exchange among different sockets.

---
